Soleful art

JENNY Green's latest sculpture is more heavy metal than Cinderella.

Green, from Clontarf, has come up with a couple of fun sculptures for the new exhibition at Traffic Jam Galleries at Neutral Bay.

Jenny Green with her sculpture.

They are a matching shoe and handbag sculpted in recycled metal, featuring an abstract design and powder-coated in black.

"The shoe and handbag symbolises our obsession with fashion," Green said.

"Just a look at the show *Sex in the City* reveals the importance of designer shoes in the life and aspirations of the modern city girl."

Urban Passion continues until April 30 at Traffic Jam Galleries, 41 Military Rd, Neutral Bay.
