

POP UP EXHIBITION

## Elizabeth Green

Please join us for an afternoon with the artist ELIZABETH GREEN on the 30th of July 2 - 4pm. New to the gallery, artist Elizabeth Green's Pop Up exhibition will be showing at *traffic jam galleries* from 21st July - 3rd August.

Elizabeth Green takes inspiration from the natural landscape and environment around her. Intimate bushscapes reveal Elizabeth's interest in understanding the fragile connection between the delicate beauty of nature and its existence within the harsh and rugged land. Working in oils and mixed media of charcoal and ink, the works capture a sense of place, revealing the mood and spirit of the world around her.

## JENNY GREEN

### INTERPLAY

JENNY GREEN'S exhibition 'Interplay' explores interactions and relationships. Mostly in pairs, these new works highlight connections and bonds, reflecting the impact we have on each other. Yet, as a group, the works portray the unity we share as a community. With a push and pull between abstraction and figuration, Jenny turns strokes—lines, rods and strips—into shapes in space. The interplay of positive and negative space reflects Jenny's emphasis on contour rather than mass.

REBECCA PIERCE'S *The Simple Life - Decluttering, redefining, sea change, tree change, life change, reverting to basics and worshipping the Luddite.*

My background of over twenty years in the fashion, design and licensing fields has considerable bearing on my work as an artist. Detail and a precise construct are paramount in both my process and approach. My work often embodies personal responses to daily and ongoing events and issues. The variation in my technique, subject and application of medium can sometimes surprise, this ongoing conversation with diversity results in driving my medium to extremes.
